

Threaded Separator Installation Kits

Griswold Filtration Installation Kits (SIK), are used to install threaded connection separators into steel or PVC piping systems with threaded connections. These kits include two specialty thread connection full port bronze bodied union ball valves (Item #2), with 1/4" FNPT taps. These 1/4" FNPT taps allow direct connection of the one liquid filled pressure gauge (Item #1), included. A separator Back Mount Kit (Item #3), used to mount a separator to a wall is available, see "Back Mounting and Foot Mounting Kit" specification sheet.

| Separator Series | SIK Model | Gauges | | | Ball Valves | | |
|------------------|-----------|----------|----------------------|-----------|------------------|---|--------------|
| | | Diameter | Connection | Range | End Connections | Material | Gauge Outlet |
| .5T | SIK-.5 | 2-1/2" | 1/4" MNPT Brass Stem | 0-160 PSI | .5"NPT to 2" NPT | Forged Bronze Body Plated Brass Ball | 1/4" FNPT |
| .75T | SIK-.75 | | | | | | |
| 1T | SIK-1 | | | | | | |
| 1.2T | SIK-1.2 | | | | | | |
| 1.5T | SIK-1.5 | | | | | | |
| 2T | SIK-2 | | | | | | |
